

Acme Corp -- Q3 2025 Financial and Operations Report

Executive Summary

Acme Corp reported total revenue of \$42.3 million for the third quarter of 2025, an increase of 18% year-over-year. Net profit for the quarter was \$6.1 million, compared to \$4.4 million in Q3 2024. Chief Executive Officer Maria Solano stated: "Our Q3 results reflect strong execution across every business unit, and the successful launch of the Nimbus AI Suite in July was a major contributor to this quarter's growth."

This report covers financial performance, regional results, headcount, product developments, and forward-looking guidance for the fourth quarter of 2025.

Revenue Breakdown by Segment

Acme Corp's Q3 2025 revenue of \$42.3 million was distributed across three segments:

Hardware: \$18.2 million (43% of total revenue)

Software: \$15.4 million (36% of total revenue)

Services: \$8.7 million (21% of total revenue)

The Software segment grew the fastest, up 31% year-over-year, driven primarily by subscription revenue from the newly launched Nimbus AI Suite. The Hardware segment grew 9% year-over-year, while Services grew 12% year-over-year.

Regional Performance

Regional revenue for Q3 2025 broke down as follows:

North America: \$25.1 million

Europe: \$11.0 million

Asia-Pacific (APAC): \$6.2 million

North America remained Acme's largest market, representing 59% of total revenue. The APAC region posted the fastest regional growth rate at 27% year-over-year, driven by new enterprise customers in Japan and Australia.

Headcount and Operations

As of the end of Q3 2025, Acme Corp employed 1,240 people worldwide, up from 1,065 a year earlier. In August 2025, the company opened a new regional office in Austin, Texas, which will house the growing Nimbus AI engineering team. Acme's headquarters remains in Seattle, Washington.

Employee attrition for the quarter was 4.1%, down from 5.8% in Q3 2024.

Research, Development, and Product

Acme Corp spent \$4.8 million on research and development during Q3 2025, representing 11.3% of total revenue. The quarter's flagship product event was the July 2025 launch of the Nimbus AI Suite, a document-automation platform built by Acme's Software division.

The R&D team also began early-stage work on a computer-vision quality-inspection product for the Hardware segment, targeted for a 2026 preview release.

Risks and Q4 2025 Outlook

Management identified supply chain disruption as the primary risk to Hardware segment margins heading into Q4, citing continued volatility in semiconductor component pricing.

For the fourth quarter of 2025, Acme Corp is guiding to total revenue in the range of \$45 million to \$47 million, which would represent continued double-digit year-over-year growth.

Appendix: Governance

Acme Corp's Board of Directors consists of five members: Maria Solano (CEO, Chair), David Okafor (independent director), Priya Nair (independent director), Tom Reyes (CFO), and Helen Zhu (independent director).

Acme Corp's independent auditor for fiscal year 2025 is Meridian & Blake LLP.
